

PETOL™ Tube Handle Wrench

The PETOL™ TUBE HANDLE WRENCH is a 12-point offset box end wrench that can be used with or without a detachable tube handle. The tube handle provides additional leverage when tightening or loosening nuts. Handles are held in place with a spring-loaded locking button. The product line is surface coated for rust resistance.

Specifications

| Part No. | Opening / Nut Size | Length | Weight | Part No. | Opening / Nut Size | Length | Weight |
